NASSOLKEM DeoKler™ True Universal Odour Absorbing Additive MasterBatches

INTRODUCTION: DeoKler™ - Odour Absorber MasterBatches for use in entire range of Plastics, Resins & Rubbers. BEST FOR RECYCLED Plastics for eliminating objectionable odour.

- | | |
|-----------------|---|
| PRODUCTS | a) DeoKler™ ‘DD’ True Universal Odour Absorber MasterBatch suitable for eliminating unwanted odour in entire range of Polymers, Resins & Rubber. Best suitable for use in Recycled plastics, resins & rubbers. |
| | b) DeoKler™ ‘DD:01’ suitable to eliminate unwanted odour in PP (both virgin & recycled). |
| | c) DeoKler™ ‘DD:30’ Specifically formulated to eliminate unwanted odour in HIPS, ABS, MABS, PolyAcetal etc. |

Product Description: DeoKler™ MasterBatches offer complete solution to avoid undesired odour in polymers in virgin as well as in recycled material.

DeoKler™ possesses excellent odour absorbing properties which eliminates complete ODOUR arising from pigments & additives containing high amount of substances like sulphur, amines, hydrogen sulphide, chlorine etc. and also VOC present in polymers.

Often, addition of Additives like Tin stabilizers, Fillers, Glass fibers, Talc & Pigments like Ultramarine Blue, Cadmium pigments, Benzidine pigments generate bad or undesirable & unpleasant odour resulting in poor product performance.

From car interiors to packaging to household appliances, food containers, boxes, medical appliances & computer peripherals everywhere generation of undesired odour is most common problem faced by every plastic manufacturer whether they are compounders, blow & injection or extrusion processors; which for them is a serious challenge.

In Recycled plastics, because of many factors such as mixing of two or more polymers, printing ink, earlier endues of product's odour, results in lesser use or lower use of recycled polymers.

Features : Ensures complete bad odour free environment in production. Recycled material can expect complete elimination of unbearable & unpleasant odour. Even **DeoKler™** odour absorbing MasterBatches takes care of odour arising out from degradation of additives & polymers. Products like Toys, Dining n Drinking Ware, Wood Plastic Decoration panel, Food Packaging Bags, Stationary, Plastic Pipe materials etc. can get rid of this objectionable odour.

Dosage : Between 2% to 5%

Physical Form : Granules

Shelf Life : 24 months

FDA Status : (✓)
